RFP #2017-01 Town of Edisto Beach Information Technology Services Addendum #1 February 10, 2017

Page 3 Background second paragraph reads “The Town’s standard network operating system is Windows Server 2012 with the associated software-Symantec Antivirus Corporate Edition, VERITAS Backup Exec 9.1 and the standard desktop operating system is Windows 12, with the following associated software-Symantec Antivirus, Adobe Acrobat, Firehouse, INCODE, MCCI Laserfiche, etc. The data backbone is a Dell PowerEdge R430 server.”

Page 3 Background second paragraph should read “The Town’s standard network operating system is comprised of two Windows 8 and three Windows 12 servers. Current antivirus is Webroot and backup and disaster system is managed by current vendor. A comparable substitute can be made. The standard desktop operating system is comprised of Windows 7 and Windows 10 workstations with the following associated software – Microsoft Office, Adobe Acrobat, Firehouse, INCODE, MCCI Laserfiche, etc. All five servers are virtualized and are hosted on a Dell PowerEdge R430 server.”

Page 13 Background Checks certification reads “Been fingerprinted to verify no criminal history and meet all requirements for administration of that portion of computer systems and network infrastructure interfacing directly or indirectly with the DCIN network for the Interstate exchange of criminal history/criminal justice information.”

Page 13 Background Checks certification should read “Been fingerprinted to verify no criminal history and meet all requirements for administration of that portion of computer systems and network infrastructure interfacing directly or indirectly with the DCIN network for the Interstate exchange of criminal history/criminal justice information and vetted by SLED preferred.”
