

Addendum No. 3
RFP 2017-10 Edisto Beach Sand Fence and Dune Planting Project

Question: How many different types of access points are there?

Answer: 7,716 plants for the project, split evenly between bitter panicum and sea oats

Question: What are the total plant quantities for this bid?

Answer: As far as the access go, there are beach access at each of the street ends, and these are shown on the plan sheet. Vehicular access is at beach access 1, 5, 8 (with coordination with Crowder), 13, 16, 20, 23-25, 27, 28, and 30. 4x4 utility vehicles may be able to use some of the other accesses, and driving on the nourishment berm will be allowed after turtle monitors have inspected the site each morning.
