February 6, 2017

On page 4: should read. Sealed bids will be received in the Administration Department prior to 4:30 p.m., February 24, 2017. Bids will be opened at 4:30 p.m. February 24, 2017.

On page 6: Bid Opening should read. All bid openings shall be public, at 4:30 p.m. on the date specified in the Notice to Bidders.

Question: Will a bond be required for this project? Bid bond, payment bond, performance bond?

Answer: The Town does not anticipate a bond requirement.

Question: I assume it is the contractor's responsibility to supply a dumpster for removed debris, or will there be FEMA dumpsters available? If the contractor is responsible for disposal of removed debris, do you know if there is a place to dump on Edisto Island or will the debris have to be taken to a landfill off the island?

Answer: Contractor will need to provide the dumpster. It will need to be disposed at a certified landfill off the island.

Question: Do you have a picture or drawing/spec of the benches and bike racks that need to be built out of the pressure treated wood? Will they be the same size benches and bike racks at each beach access location?

Answer: Attached are pictures of the bench, bike rack and rope fencing. The size will be consistent at all beach accesses.
